## WORK EXPERIENCE

Dcyber Tech Lab Pvt. Ltd. , Mumbai

Dec 2025 – Present

*Full Stack Developer Intern*

- Designed and developed **LiteHR**, a full-stack HR & Attendance Management System using **React, Node.js, Express, and MySQL** for small organizations.
- Implemented **JWT authentication** and **role-based access control** (Admin, Manager, Employee) with core modules including attendance, leaves, tasks, dashboards, and payslip generation.
- Integrated frontend with backend APIs, **Cloudinary file uploads**, resolved complex integration issues, and built an **AI-powered HR chatbot** for employee policy and attendance queries.

## PROJECTS

### CareerUp : AI-Powered Career Guidance Platform

- Built an AI-powered platform providing **mock interviews** and **resume feedback** for job seekers.
- Integrated **Gemini AI** and led backend development, including API design, authentication, and interview workflow management.

### India Map Game : Interactive Geography Quiz App

- Developed an interactive Android application using **Flutter** to test users' knowledge of Indian geography through map-based quiz interactions.
- Designed engaging gameplay mechanics and intuitive UI to improve user learning and retention.

### StepUp : Online Shoes Store (E-commerce platform)

- Built a full-stack e-commerce platform for selling shoes, handling all backend and database operations.
- Designed and implemented RESTful APIs for product listings & cart management to ensure robust backend functionality.
- Collaborated with UI/UX designers to align backend processes with a seamless user experience.

## TECHNICAL SKILLS
